

2023 Research

GREETINGS FROM THE OWNER

Advance Agra Service works to stay on the forefront of seed genetics and variety selection in order to bring the top yielding varieties to your farm. Each year, we conduct extensive variety research in order to represent you, our customer, and your interests. We advocate on behalf of farmers to get you the seeds that will produce the highest yields in your location. Through our research and our customer focus, we work with you and for you to *move yields forward*.

Thank you for allowing us to serve you!

Above average yielding hybrids that were tested for 2 or more years across all relative maturities. The yields for these hybrids are greater than or equal to 1 standard deviation from the average. Hybrids are sorted by yield from high to low. Top Yield Group % is the percentage of time the hybrid was in the top yield group across all locations tested in this category.

For more details on these hybrids, visit ncovt.medius.re
